TITLE INDEX.

The primary design of this Index is to remedy **Robert Clavell**'s bungling carelessness in omitting from many of the Titles in the Text, the Names or Initials of the Authors, Editors, etc., which are to be found in the books themselves. The recovery of this information has been a most arduous undertaking, extending over months. The following references have been observed. There may possibly be others; for it has not been practicable to make this Index exhaustive and complete.

Advantage has also been taken to include in this Index the following useful helps:

(*a*) Similar Titles of different Books. There were, at that time, a good many resemblances of the Titles of successful Works; sometimes by Imitators, at other times by Antagonists.

(*b*) Different Titles to what is actually the same Text.

(*c*) Each of the *alternative* Titles of *single* Poems, Plays and Novels; and the Titles of Serials.

3. The English Articles, *A*, *An* and *The*, have been omitted at the beginning of each Title.

4. All the Personal Names in black type in this Index will be found in the next one. E.A.
